

# Interoperable platforms and data exchange for energy services: practical experience from the BRIDGE projects

Hannes Munzel | MIGRATE | Utility week – Vienna – 06/11/2018

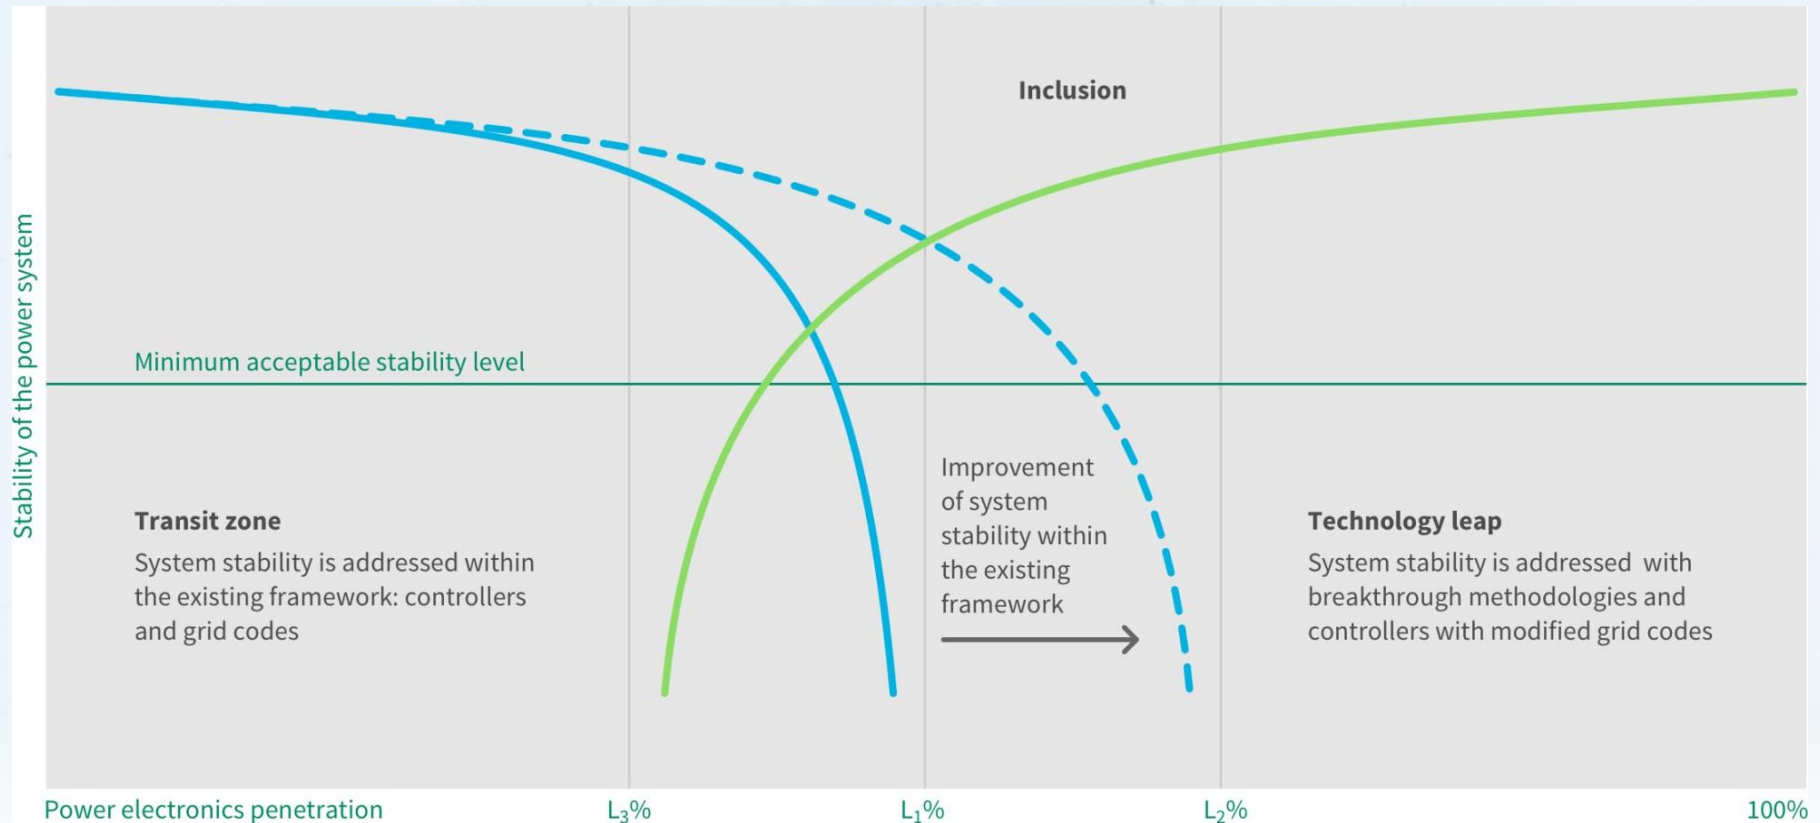

# MIGRATE

## **The objective of MIGRATE is:**

- To develop and validate innovative, technology-based solutions in view of managing the pan-European electricity system experiencing a proliferation of Power Electronics (PE) devices involved in connecting generation and consumption sites.

# MIGRATE

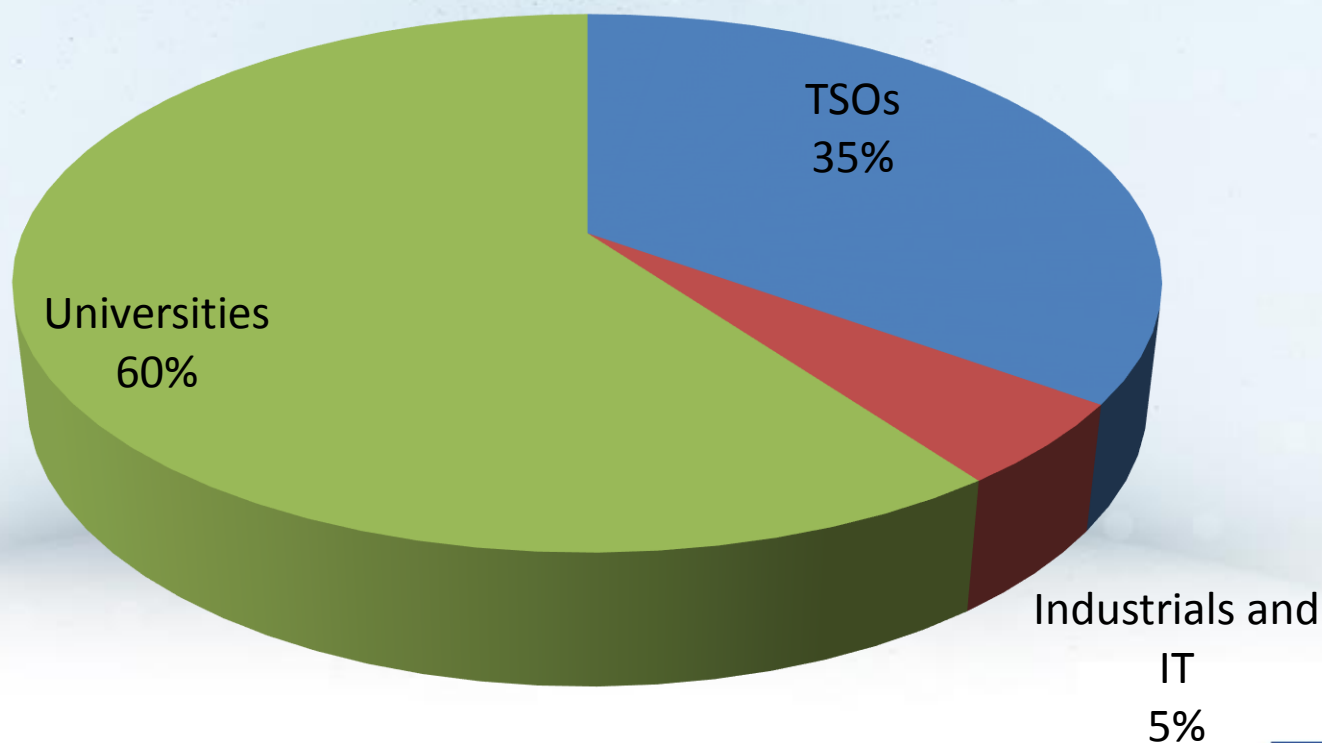

# MIGRATE

# Regulation

work load per parner based on person month

# Next frontier

- no consistent regulatory framework for European TSOs for RnD
- data exchange among TSOs and DSOs
